Date: May 20, 1996

To: BDAC Members

From: Lester A. Snow, Executive Director
CALFED Bay-Delta Program

Subject: BDAC Information Packet

The next BDAC meeting is scheduled to be held at the **Sacramento Convention Center on Wednesday, May 29, 1996 from 10:00 am to 5:00 pm**. If you need to make arrangements and have not done so, please contact Robin Jenkins as soon as possible.

In preparation for the next meeting, we have attached several items:

- Draft agenda for the May 29, 1996 BDAC meeting;
- Summary of Key Emerging Issues Synthesized from comments received during the Scoping Period;
- Description of the Alternative Refinement Process and the Components;
- Letters received from BDAC members since the last BDAC meeting; and
- Memorandum describing CALFED Ecosystem Restoration Coordination.

As stated in earlier correspondence, the objective for the next BDAC meeting is to review key issues and concerns raised during the Scoping Period and to discuss how the components are being revised based on this input. We will also discuss the alternative refinement process describing our progress in developing the alternatives to be carried forward for analysis and evaluation in Phase II. The revisions discussed at the BDAC meeting will shape and form the foundation for the Phase II alternatives. We have also sent notices of this BDAC meeting to the individuals who have attended the CALFED Bay-Delta Program Public Workshops and will have an interest in the revision of the components, therefore, we expect significantly higher attendance.

Also, mark your calenders for a BDAC meeting on Friday, July 19, 1996. This meeting will be important as we hope to have a fairly well developed short list of alternatives at that time. We look forward to seeing you on May 29!
